1. WHAT’S IN THE BOX

ZENEO

CHARGER + USB CABLE

GET STARTED GUIDE

2. OVERVIEW

Speaker

Touchscreen

Microphone
3. CHARGING

Charge ZeNeo for one hour and a half before your first use.

1. Plug the charging cable into the USB port on your computer or a certified USB wall charger.
2. Place ZeNeo in the charging cradle.
3. A battery indicator will fill to indicate charging is in progress. While the watch charges, double tap the screen to check the battery level.
4. Once ZeNeo is fully charged, the battery indicator will be full.

It takes about 1 hour and a half to fully charge ZeNeo. When the battery level gets low, a battery indicator will appear.

Check ZeNeo battery level at any time from the shortcuts interface or by going to the Watch Settings menu > Select Device icon > Click on Battery level icon.

A fully charged ZeNeo has a battery life of 3/4 days. Please note that battery life depends on usage and the features you enable.
4. BASIC OPERATIONS

I TURN ON/OFF THE DEVICE
Double tap the screen

I MOVE BETWEEN SCREENS
Slide to the right for activity menu
Slide to the left for main menus
Slide up for notifications
Slide down for shortcuts

I ENTER A MENU/SELECT/CONFIRM
Tap with one finger to open or select a menu item

I EXIT A MENU/GO BACK TO PREVIOUS SCREEN
Double tap the screen

I CHANGE THE WATCH FACE
To change your ZeNeo watch face, press firmly on the current watch face, swipe left or right to go through the different watch faces available and tap on the one you want to select and use.

To ensure ZeNeo is responding accurately to your taps, we recommend using your fingertip and not your nail.
5. WEARING

I DAILY WEAR
For all-day wear, we recommend you to wear ZeNeo a finger’s width above your wrist bone.

I EXERCISE & WORKOUT
During our workout, we suggest you to wear ZeNeo higher on your wrist for recording more accurate heart-rate reading.

• Make sure ZeNeo is in contact with your skin.
• Wear ZeNeo on your non-dominant hand.
• Do not fasten the wristband too tight for better comfort and not to restrict bloodstream.

6. SHORTCUTS

Swipe down from the main watch face to access ZeNeo shortcuts.

BLUETOOTH® STATUS
Shows BT 3.0 for audio features and BLE for synchronization and connected features

VIBRATION/BUZZER
Turn on vibration (default)
Turn on vibration & buzzer
Turn on buzzer
Mute

DO NOT DISTURB
Stops notifications, alerts and calls from making any noise, vibration or lighting up the phone screen when the screen is locked

FLIGHT MODE
Prevents the device from sending or receiving calls and text messages

SETTINGS
Quick access to the Settings menu

BATTERY LEVEL
Shows the remaining battery level of your watch
7. PAIRING

Get the MyKronoz App
When turning On your ZeNeo for the first time, you’ll be prompted to download the MyKronoz mobile app on your smartphone in order to proceed to its initial set up.

iOS
- iOS9+ devices with Bluetooth® 4.0 BLE
  iPhone 4s, 5, 5c, 5s, 6, 6 Plus, 7, 7 Plus, 8, 8 Plus, X, XR, XS, XS Max

Android
- Select Android 6.0+ devices that support Bluetooth® 4.0 BLE

Visit mykronoz.com to get the latest compatibility list.

1st pairing (BLE)
Pair through the MyKronoz App to sync your data and receive notifications

1. Ensure the Bluetooth® is enabled on your mobile smartphone.
2. Search for the MyKronoz App in the App store or Google Play store, download and install the App on your mobile device.
3. Open the MyKronoz App on your mobile device. Sign up if you are a new member or login with your existing account. After entering your personal information, tap Set up.
4. Make sure ZeNeo is nearby and select ZeNeo model.
5. To connect the first Bluetooth® antenna, follow the on-screen instructions.
QR code pairing
- During the first setup, a QR code will appear on the watch screen
- To pair your device with your phone, put the QR code on ZeNeo into the viewfinder (MyKronoz App)
- When ZeNeo is successfully paired, you will be notified on your mobile phone’s screen.

Tips & tricks
Normal pairing: Tap on the center of the watch face screen 3 times to reveal the QR code on the watch screen.

Alternative pairing (Manual mode)
- Make sure ZeNeo is nearby, select ZeNeo in the list of devices and confirm
- A pairing request will prompt up on your mobile device
- Tap on ✓ to accept the pairing
- When ZeNeo is successfully paired, you will be notified on your mobile device’s screen

At the end of the setup process, a firmware update may start automatically. This will ensure that you have the most up to date software on your device and benefit from all the latest features.

1️⃣ 2ND PAIRING (BT 3.0)
Pair from your mobile phone Bluetooth® settings to receive and make calls

6. To connect the second antenna, open the Bluetooth® settings of your phone and select ZeNeo.
8. FIRMWARE UPDATE

MyKronoz will provide regular firmware updates which you will need to install in order to access our latest upgrades and features for your watch. With ZeNeo, all these updates need to be done by OTA (Over The Air) and through the mobile app. Updates are performed over the air using the mobile app. Before updating, make sure your phone and your watch have more than 30% battery.

IN ORDER TO UPDATE YOUR WATCH

- Connect your ZeNeo to the mobile app
- If a new update is available you will be prompted from the mobile app home page or the Paired watches section.
- You must click on the banner and confirm in order to start the updating process.

During the whole update process you must keep your watch near to your smartphone and your application must be open. Avoid using your phone during the update process. After a successful update, the watch will shut down for 1 minute and restart automatically. Do not turn off the device manually during this time.

9. ACTIVITY TRACKING

Your watch has a built-in 3-axis accelerometer that allows you to track your daily activity based on your movements. This, together with your profile information, allows your tracker to calculate your steps, walking distance and calories burned. In order to get the most accurate results we recommend you to wear your watch on your left wrist if you’re right handed and on your right one if you are left handed.
VIEW YOUR STATS

ZeNeo tracks throughout the day:
- Number of steps taken
- Distance travelled
- Calories burned
- Active minutes

You can view your daily activity in real-time from your device.

You can also monitor your activity data and history from the MyKronoz Mobile App. On the main activity screen, you can check your performance level against your daily goals. Click on any activity bar to get a detailed graph of your daily, weekly and monthly performance.

The activity tracker resets at midnight.
To save your latest activity, go to the Activity tab of the MyKronoz App. Your activity will sync automatically as soon as you open this page.
To sync your data manually, slide your finger down the screen.
ZeNeo has the ability to store up to 7 days of your activity data. Then, you will have to synchronize your ZeNeo with your mobile app in order to avoid loss of data.

10. GOALS

SET GOAL FROM THE MOBILE APP
- Go to the Settings tab
- Select the Goals section

Set daily goals for steps taken, distance travelled, calories burned, active minutes and hours slept.
### SET GOALS FROM THE WATCH

- Go to the **Activity interfaces**
- **Long press the screen data** for which you want to **adjust** your goal and **confirm**

On each activity screen of your ZeNeo, a progress bar will show how close you are to your daily goal.

Once you hit one of your daily goals, ZeNeo will gently vibrate and display a Goal achieved interface.

We recommend you to set ambitious but realistic goals in order to keep a healthy daily activity. You can obviously raise your goals over time to increase your performance. On average it is recommended to have at least 30 minutes of physical activity per day.

### 11. HEART RATE

Equipped with an optical heart rate sensor, ZeNeo measures manually or automatically your heart rate frequency throughout the day.
**MANUAL MODE**

- Securely attach your ZeNeo around your wrist.
- Go to the **Heart rate** menu of your watch.
- Touch the **red button** to start measuring your heart rate.

It will take about 10 seconds to get the results displayed on your watch screen.

**AUTO HEART RATE TRACKING**

- Go to the **Settings tab** of your mobile App
- Click on **Heart rate**
- Enable **Auto track** and set the frequency

Once activated, two green LED lights will start flashing on the back of the device.

ℹ️ Setting automatic HR monitoring on a very regular basis will impact the battery life.

**HEART RATE ALERT**

ZeNeo can also alert you when your heart rate is going above or below preset limits. You can customize those limits directly from the watch > Go to the **Settings menu** > Click on **Activity** > Select **Heart rate** or in the mobile app settings.
12. SLEEP

ZeNeo tracks the hours slept and the quality of your sleep.

! START/EXIT SLEEP MODE MANUALLY
- Press the sleep app icon of the ZeNeo main menu
- Press on the Start icon to enable sleep monitoring
- Press on the End icon to stop sleep monitoring

! SLEEP GOALS FROM YOUR WATCH
- The sleep goal is 8 hours by default
- Long press the screen to set up your daily sleep goals to your most suitable length
  - Set the hour first. Then validate.
  - Set the minute and confirm.

! ENABLE PRESET SLEEP MODE
- Open the MyKronoz App
- Go to the Settings menu
- Click on Advanced Settings
- Select or Click on Sleep to enter your desired bed and wake up times.

By default, ZeNeo will track your sleep from 11pm until 7am.
You can also view your last saved data directly from the device.

13. STOPWATCH

! TO USE THE STOPWATCH
- Open the Stopwatch app
- Start counting by pressing the Play icon
- To stop counting, press the Pause icon
- Click on the Reset icon to set the counter to 0
14. TIMER

TO USE THE TIMER

- Open the Timer app
- Set the countdown length by tapping on the hours, minutes or/and seconds area. The selected area will turn purple
- Swipe up and down to adjust the countdown. Then press the start button to start the timer.
- At the end of countdown, your watch will alert you with sound and vibration.

15. CALLS

The ZeNeo calls features allow you to dial a number, see the caller ID & calls history, answer and reject an incoming call directly from your wrist.

In order to enjoy all these features, you must ensure that the BT 3.0 is connected with your smartphone (refer to 6. Pairing section for more details).

Once it is paired, you will be able to enjoy the following features

ANSWER / REJECT / REPLY PHONE CALLS ON ZENEVO

When you hear or see the call notification, raise your wrist to see who’s calling:

- Reset a call and send to voice mail: Tap the red Reject button in the incoming call notification
- Answer on your ZeNeo: Tap the green answer button in the incoming call notification
- Send a text message (Android only): Tap on the top area to select one of the predefined replies

To see the caller ID, make sure that the contact is saved on your phone.

While you’re on a call:

- Adjust the call volume: Tap on the - or + buttons
- Hang up a call: Tap on the red Hang up button
- Mute the mic: Tap on the Mute button
16. VOICE COMMAND

The voice command allows you to remotely control your phone, search for information or send a quick command.

To enjoy this feature, make sure that the BT 3.0 is connected with your smartphone (refer to 6. Pairing section for more details).

SEND A VOICE COMMAND

- Open the Voice command app
- Tap on the Voice control button to enable the function
- Ask to Google now or Siri something
- Press the Voice control button to speak or send another command

Examples of what you can ask or do:
- Check the weather
- Set an alarm (on your phone)
- Send a text message

This feature is only functional with iOS 9+ devices compatible with Siri and some Android 6.0+ devices compatible with Google Now. To enjoy this feature, ensure that your smartphone has access to the internet (4G or Wi-Fi).
ZeNeo shows notifications of incoming calls, SMS, email, social media activity & emails.

I SETTING UP NOTIFICATIONS FOR ANDROID USERS

• Open the MyKronoz App
• Tap on the Settings tab
• Select Notifications to select the notifications you want to receive onto your ZeNeo. If you wish to disable certain notifications types, swipe the selection button to the left.

I SETTING UP NOTIFICATIONS FOR iOS USERS

• Go to the Settings of your iOS device
• Tap on Notification Center
• Select which type of notifications you wish to receive on ZeNeo.
• Enable "Show in Notification Centre" to receive the notification on ZeNeo.

ZeNeo shows the 20 most recent notifications and 3 screens of detailed information for each notification. For some very popular applications, ZeNeo displays the original application icon. For other applications, ZeNeo displays a generic icon.

I POP UP NOTIFICATIONS

As soon as you receive a notification, you will be notified on your watch.
• Tap on the notification preview to open it
• Slide left to discard a notification
• Slide right to read it later

To ensure that you do not miss any notifications, the last notification received will remain on the screen until you perform one of these actions above.
18. SMS

From the Messages menu, you can easily read and reply to your SMS.

**QUICK REPLY (ANDROID ONLY)**

ZeNeo allows you to reply using emojis or preset short answers directly from your watch. The reply button appears at the end of the SMS. To delete all your SMS notifications, go on the SMS list and long press the screen. To erase a specific SMS, select the message and slide it to the left with your finger.

19. WEATHER

To check the current weather, go to the Weather interface on your ZeNeo or swipe down from the home screen and click on the weather widget at the top. By default, the weather screen shows your current location.

**SET UP THE WEATHER FEATURE**

- Go to the Advanced settings of the mobile app
- Tap on Weather
- Select Auto track mode to get weather forecasts based on your GPS position or
- Select Manual mode to choose your location

Following this procedure, your ZeNeo will display the weather forecast of your select location.

ZeNeo will display the weather forecasts of the present day and upcoming 3 days on a second page.

To change the temperature unit, go in the Watch settings > click on Activity > select Units or from the mobile app, go to the Settings menu > Change your weight or height unit. If the weather condition for your current location seems wrong or doesn’t appear, make sure that the location services for the MyKronoz App are switched ON.
ZeNeo can be used as a remote control to take pictures and selfies from your smartphone. This feature is useful when you want to take a group picture or when you want to take a selfie.

### 20. FIND MY PHONE

If you misplace your phone, the Find my phone function will make your phone ring or/and vibrate so you can easily find it. To use this feature, ensure your phone and watch are within range of each other (10m).

I TO ENABLE THIS FEATURE

- Press the **find my phone app icon** in the watch shortcuts or in the main menu page (or Apps menu), select **Find my phone app** and click on the screen to **enable** or **disable** it.

### 21. CAMERA REMOTE

ZeNeo can be used as a remote control to take pictures and selfies from your smartphone. This feature is useful when you want to take a group picture or when you want to take a selfie.

I TO USE ZENEO AS A CAMERA REMOTE

- Open the **native camera** of your smartphone
- Click on the **Camera app icon** on your watch
- You can then, tap the **camera icon** displayed on your watch screen to start the countdown and take photos

*This feature only works with your native camera. Each picture taken from your ZeNeo will appear in the image gallery of your smartphone.*
22. MUSIC CONTROL

With ZeNeo you can take control of your favorite music player like Deezer, Spotify and YouTube on your smartphone.

![Music Control Icons]

1 TO CONTROL MUSIC

- **First start the player** on your phone
- Go into the **Music app** on your ZeNeo
- **Play, pause, skip tracks** and adjust **volume** straight from your wrist

On your ZeNeo, you can see information about the track currently playing, like the artist or track name (Android only).

23. ANTI-LOST

This alert notifies you with a vibration or a sound (depending on your watch settings) when your ZeNeo is going out of range (BT range 10 m) of your phone.

Note that you can turn this function off by disabling the **Anti-lost alert** in the **Watch Settings > Select Device > Click on Anti-lost**.

![Anti-Lost Alert]

By default, the anti-lost alert is Off.
24. APPS

Several applications can be found in this menu:

- Reminder
- Calendar
- Stopwatch
- Camera remote
- Timer
- Find my phone

25. ALARM

To wake you up in the morning, or alert you at a certain time of the day, you can set up alarms that gently vibrate and ring at the chosen time.

To set an alarm from the watch:

- Go to the Alarm app icon
- Click on the top area to edit a new alarm
- Set the alarm time, sound and day
- Then confirm

To dismiss the alarm, press the button.

For each alarm, ZeNeo will vibrate and ring continuously for 1 minute. You can snooze your wake up alarms several times. The snooze length can be set in the advanced settings from the mobile app or in the watch settings.
Several applications can be found in this menu:

I TO SET A REMINDER FROM THE WATCH

• Go to the Reminder app icon
• Click on the top area to edit a new reminder
• Set the reminder time, type, sound and day
• Then confirm

To dismiss the reminder, press the button.

ZeNeo will gently vibrate and display the corresponding reminder icon to alert you. A single press on the ZeNeo button helps dismisses the reminder. If not dismissed, the same alert will repeat every 2 minutes.

For each reminder, ZeNeo will vibrate and/or ring.

I TO SET A REMINDER FROM THE APP

• Tap on the Reminders tab of MyKronoz App to add daily life reminders
• Set up reminders, and choose the type of reminder and preferred time and day.
Several settings can be found and set in this menu:

### DEVICE
- **Bluetooth**
  - Enable or disable it
- **Battery level**
  - Check the battery level
- **Anti-lost**
  - Enable or disable it

### ACTIVITY
- **Goals**
  - Set your goals
- **Units**
  - Metric or Imperial
- **Heart rate**
  - Set your heart rate frequency

### SOUNDS & VIBRATIONS
- **Sound**
  - Set your sound mode
- **Vibration**
  - Set your vibration mode
- **Do not disturb**
  - Set a time frame when you don’t want to be disturbed
- **Snooze**
  - Adjust the snooze time
- **Ringtone**
  - Set the ringtone (Android only)

### DISPLAY
- **Brightness**
  - Adjust the screen brightness
- **Watch face**
  - Set your watch face
- **Menu style**
  - Select a menu style

### TIME & DATE
- **Time format**
  - Change time format
- **Date format**
  - Change date format

### SYSTEM
- **Languages**
  - Set your language
- **Watch info**
  - View the firmware version and serial number of the device
- **Regulatory**
  - View the watch certification
- **Reset**
  - Reset your watch to its default settings

You can also find other settings such as do not disturb mode, inactivity alert and time format setting in the MyKronoz App.
29. UNPAIR, RESET, UPDATE & DELETE

I UNPAIR
If you want to pair your ZeNeo with another smartphone, pair another MyKronoz device, give it to another person or return it, go to the MyKronoz App > Settings menu > Click on Paired watches > Click on Unpair. For iOS users, make sure to forget the device from the Bluetooth® settings of your phone.

I UPDATE
Make sure to update your ZeNeo to get the latest improvements and device updates. When a new update is available, a notification appears in the MyKronoz App and the paired watches section. After starting an update, a progress bar appears in the MyKronoz App as well as an Upgrading message on ZeNeo until the update is fully complete. To avoid any issue, make sure to keep your tracker and smartphone close to each other during the process.

I RESET

Hard reset from the mobile app
To reset your device from the MyKronoz App > Click on the Settings menu > Select Paired Watches > Click on Reset

Hard reset from the watch
To reset your watch directly from the device > Go to the Settings menu > Click on System > Select Reset
This procedure will erase all content, data and settings on your watch and set your watch back to the setup mode.

I DELETE
To erase a device from your list of paired watches, go to the MyKronoz App > Click on the Settings menu > Click on Paired Watches > Click on Delete.

WARNING

I Connecting the built-in USB port improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty. Unplug ZeNeo when it is fully charged.
I ZeNeo unit and charging dock contain strong magnets that may interfere with pacemakers, credit cards, watches and other magnet-sensitive objects. If you use a pacemaker or any other electronic medical device, please consult your physician before wearing or handling ZeNeo.
I This product is not a medical device and should not be used to diagnose or treat any medical condition.
I This device is not waterproof so keep it away from all sources of heat or humidity. Do not use it near sink or other wet areas. Do not place it in water. ZeNeo only conforms to IP56 protection.

ABOUT THIS MANUAL

The features of ZeNeo and the contents of the user manual are subject to change.
To get the latest instructions on how to use this product, please refer to the online user manual available on www.mykronoz.com

SUPPORT

If you have any question or require assistance regarding our product, please visit www.mykronoz.com/support/ submit a request at https://support.mykronoz.com/hc/en-us/requests/new
SAFETY INSTRUCTIONS

Before using the device, read these instructions carefully.

• ZeNeo has built-in batteries. Do not disassemble the battery on your own. KRONOZ LLC is not responsible for any damage or personal injury caused by the removal of the battery or any component.

• Do not expose your product to extremely high or low temperatures. Excessive temperature during charging could cause heat, smoke, fire or deformation of the battery or even explosion. Do not expose the battery in the sun, excessive smoke or dust. Charge the battery in a cool, ventilated room.

• Do not open, crush, bend, deform, puncture or shred secondary cells or batteries. In the event of a battery break or leak, prevent battery liquid contact with skin or eyes. If this happens, immediately flush the areas with water (do not rub the eye) or seek medical help.

• Do not short-circuit. Short-circuiting can occur when a metallic object, such as coins, causes direct connection of positive and negative terminals of the battery. Short-circuiting may damage the battery.

• Do not use batteries that have been damaged or have been exhausted.

• Keep the batteries out of children’s reach and in a safe place to prevent danger.

• Do not place the batteries in the water. Do not expose your product to water at high pressure, such as ocean waves or waterfall. Do not use your product in a sauna or steam room.

• Do not dispose of batteries in fire as they may cause explosion. Dispose of used batteries in accordance with your local regulations (such as recycling). Do not dispose as household waste.

• Use only the USB cable supplied to charge this battery. Do not charge for more than 24 hours.

• Do not attempt to repair or maintain the watch by yourself, service and maintenance should be performed by authorized technicians.

• Risk of explosion if battery is replaced by an incorrect type.

• Dispose of used batteries according to these instructions.

CAUTION

• This device has a recording function. Please be sure to comply with the relevant laws and regulations on the use of these features. In accordance with relevant regulations, without permissions any personal characteristic sound recording being copied and disseminated may be seen as an invasion of privacy. Inappropriate use of photography, video and photo, audio recording function records could violate the copyright owner’s right. For this, the user must assume full responsibility. KRONOZ LLC is not responsible for any damage caused by improper use of the device.

• This device is not waterproof. Do not immerse the device in water or any other liquids.
REGULAR NOTICE

USA

FCC STATEMENT
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTIONS
Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment.

FCC NOTICE
This equipment complies within the limits of a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protections against radio and TV interference in residential areas. However, even during normal operation, this equipment may cause TV or radio interference. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try one or more of the following corrective measures:
• Reposition the receiving antenna.
• Increase the distance between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

RF EXPOSURE STATEMENTS
This equipment complies with FCC radiation exposure requirement set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

FCC ID: 2AA7D-ZNEO

CANADA

INDUSTRY CANADA (IC) STATEMENT
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Cet appareil est conforme à la norme CNR d’Industrie Canada applicable aux appareils radio exempts de licence. Son utilisation est soumise aux deux conditions suivantes: (1) cet appareil ne doit pas provoquer d’interférences et (2) cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un fonctionnement indésirable du dispositif.

IC: 12131A-ZNEO
RF EXPOSURE STATEMENTS
This device complies with the ISED RSS-102 RF exposure requirement set forth for an uncontrolled environment and are safe for intended operation as described in this manual.
Cet appareil est conforme aux exigences d’exposition RF de l’ISED RSS-102 définies pour un environnement non contrôlé et est sûr pour le fonctionnement prévu comme décrit dans ce manuel.

EUROPEAN UNION

ACCESS TO THE REQUIRED INFORMATION ON THE E-LABEL
Users can access the E-Label screen on ZeNeo by going to Settings > General > Regulatory. No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device. Additional regulatory information are in « Regulatory notices » of this document. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.
DISPOSAL AND RECYCLING INFORMATION

After the implementation of the European Directive 2012/19/EU in the national legal system, the following applies: electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic device at the end of their service lives to the public collecting points set up for this purpose or point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
